Describe:

The forklift driver Miguel Torres was transferring totes from one trailer to the next to hold for the night. On the very last tote loaded he reported to me that one of the totes was leaking. I had him leave the dock because of the fumes and I did the same. I called the safety dept and reported the incident. Miguel pulled two trailers away from the dock that were next to the one that contained the spill. I was unable to determine which tote was leaking. After speaking with Jeff we pulled the trailer away from the dock and closed 5 bay doors to prevent fumes going into the dock.
