Describe:

On June 25, 2019, at 0632 ET, ERTS was contacted by XPO Logistics Terminal XDM regarding a cargo release. It was reported that due to a forklift puncture, (1) 275-gallon poly tote of Paint Loc CP Phosphatizing Agent (Phosphoric acid, solution, UN1805) was damaged, releasing approximately 275 gallons of product on to the trailer and dock floors, and continuing on to the asphalt beneath the trailer. A contractor was dispatched to clean up the release with absorbents, neutralizer and the proper PPE. The released product, damaged tote, and all other debris were containerized in (14) 55-gallon poly drums. The waste drums were then staged onsite at OS&D for terminal personnel to manage.
