PART VI - DESCRIPTION OF EVENTS & PACKAGE FAILURE

- Describe the sequence of events that led to the incident and the actions taken at the time it was discovered. Describe the package failure, including the size and location of holes, cracks, etc. Photographs and diagrams should be submitted if needed for clarification. Estimate the duration of the release, if possible. Describe what was done to mitigate the effects of the release. Continue on additional sheets if necessary.

Describe:

The KAG West LLC driver was delivering jet fuel to the customer location. Customer personnel are responsible for connecting the delivery hose to the storage tank. Customer personnel inadvertently connected the hose to the incorrect tank. This resulted in the storage tank being overfilled and approximately 200 gallons of jet fuel being released into the tank's containment area. Western Refinery Services responded to the scene and handled the remediation. No further environmental impact is anticipated.

PART VII - RECOMMENDATIONS/ACTIONS TAKEN TO PREVENT RECURRENCE

- Where you are able to do so, suggest or describe changes (such as additional training, use of better packaging, or improved operating procedures) to help prevent recurrence. Provide recommendations for improvement to hazardous materials transportation beyond the control of your individual company. Continue on additional sheets if necessary.
