Describe:

This trailer was sent to Polar Express in Spartanburg, SC at the beginning of May, this year, after it was found at NTS Tankwash in Duncan, SC to be leaking water on 4/29/14 during the cleaning process. Polar repaired the barrel, then the trailer was sent to Omni Services in Riceville, TN on 7/31/14 to have the rubber on the interior and exterior of trailer repaired. Michael West was sent to pick the trailer up from TN on 8/18/14. Next day after trailer was load Mr. West drove to the cosignee in Smyrna, GA to take his 10 hr break. At approximately 05:00 the next morning a Compass employee woke him up to let him know the trailer was leaking. There was no way to stop the leak, haz-mat team had been called by the cosignee, and they were going to attempt to pump off what product they could.
