

Hazardous Materials Incident Report

Form Approval OMB No. 3137-0039

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 2137-0039. The filling out of this information is mandatory and will take 96 minutes to complete.

INSTRUCTIONS

Submit this report to the Information Systems Manager, U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration, Office of Hazardous Materials Safety, DHM-63, Washington, D.C. 20590-0001. If space provided for any item is inadequate, use a separate sheet of paper, identifying the entry number being completed. Copies of this form and instructions can be obtained from the Office of Hazardous Materials Website at http://hazmat.dot.gov. If you have any questions, you can contact the Hazardous Materials Information Center at 1-800-HMR-4922 (1-800-467-4922) or online at http://hazmat.dot.gov.

PART I - REPORT TYPE

Incident Id:
 This is to report:

: A

X-2024111050

 3. Date of Incident: 11/23/2024 5. Enter National Response Center Report Number (if applicable): 		 4. Time of Incident (use 24-hour time): 07:21 6. If you submitted a report to another Federal DOT agency, enter the agency and report number: 	
9. Transportation Phase: In Transit			
10. Carrier/Reporter: Name: Street: City: State: Zip Code: Federal DOT Id Number:		OMPANY Hazmat Registration Number: 060322550212EG	
11. Shipper/Offeror:			
Street:		Hazmat Registration Number:	
12. Origin (if different from shipper a Street: City: State: Zip Code:	address)		
13. Destination: Street: City: State: Zip Code:	PRINCE GEORGE		
14. Proper Shipping Name of Hazard Material:	Ious SULFUR, MOLTEN		
15. Technical/Trade Name: SULFUR, MOLTEN			
16. Hazardous Class/Division: Miscellaneous Haza		rdous Material	
17. Identification Number: (E.g. UN2764	I, NA 2020) NA2448		

18. Packing Group: (if applicable)	III					
19. Quantity Released: (Include Measurement Units)	2 Liquid - Gallon					
20. Was the material shipped as a hazardous w If yes, provide the EPA Manifest Number:	vaste? False					
21. Is this a Toxic by Inhalation (TIH) material? If yes, provide the Hazard Zone:	False					
22. Was the material shipped under an Exemption, Approval, or Competent Authority Certificate? False If yes, provide the Exemption, Approval, or CA number:						
23. Was this an undeclared hazardous material shipment?	Is False					
PART III - PACKAGING INFORMATION	N					
24. Check Packaging Type (check only one - if Tank Car	more than one, list type of packaging, copy Part III, and complete for each type:					
25. See instructions and enter the appropriate failure codes found at the end of the instructions. Be sure to enter the codes from the list that corresponds to the particular packaging type checked above. Enter the number of codes as appropriate to describe the incident. Enter the most important failure point in line 1. If there are more than two failure points, provide in this format in part VI. What Failed: - 105-Bolts or Nuts How Failed: - 308-Leaked Causes of Failure: - Improper Preparation for Transportation						
26a. Provide the packaging identification mark Identification M						
(Examples: 1A1/Y1.4/150/92/USA/RB/93/RL, UN31H1/Y0493/USA/M9339/10800/1200, DOT - 105A - 100W (RAIL), DOT 406 (HIGHWAY), DOT 51, DOT 3-A) 26b. For Non-bulk, IBC, or non-specification packaging, if identification markings are incomplete or unavailable, see instructions and complete the following:						
J						
Single Package or Outer Packaging:	Single Package or Inner Packaging (if any):					
Packaging Type: Material of Construction: Head Type (Drums only):	Packaging Type: Material of Construction:					
Packaging Type: Material of Construction: Head Type (Drums only): 27. Describe the package capacity and the qua	Packaging Type: Material of Construction:					
Packaging Type: Material of Construction: Head Type (Drums only):	Packaging Type: Material of Construction: Intity: Single Package or Inner Packaging (if any): Gallon Package Capacity:					
Packaging Type: Material of Construction: Head Type (Drums only): 27. Describe the package capacity and the qua Single Package or Outer Packaging: Package Capacity: 13819 Liquid - C Amount in Package: 13819 Liquid - C Number in Shipment: 1 Number Failed: 1 28. Provide packaging construction and test in Manufacturer: Serial Number: TILX135353 Material of Construction: (if Tank Car, CTMV, Design Pressure: (if Tank Car, CTMV,	Packaging Type: Material of Construction: Material of Construction: Single Package or Inner Packaging (if any): Gallon Package Capacity: Gallon Amount in Package: Number in Shipment: Number in Shipment: Number Failed: formation, as appropriate: Manufacture Date: Last Test Date: Last Test Date: Portable Tank, or Cylinder) V, Portable Tank)					

30. Result of Incident (check all that apply):			
- Spillage: True - Fire:			
- Explosion: - Material E		ntered Waterway/Storm Sewer:	
		ntal Damage:	
- No Release: False			
31. Emergency Response: The following entities re Fire/EMS Report #: Police Report #: In-house cleanup: True Other Cleanup:	esponded to the incident: (Ch	eck all that apply)	
32. Damages Was the total damage cost more than	\$500?	True	
If yes, enter the following information:	(If no, go to question 33.)	ndo	
Material Loss:	\$ 0.00		
Carrier Damage:	\$ 0.00		
Property Damage:	\$ 0.00		
Response Cost:			
Remediation/Cleanup Cost:	\$ 0.00		
	(See damage definitions in the in-	structions)	
33a. Did the hazardous material cause or contribute to a human fatality? If yes, enter the number of fatalities resulting from the hazardous material:		False	
Employees:			
Responders: General Public:			
33b. Were there human fatalities that did not result If yes, how many?	from the hazardous materia	I? False	
34. Did the hazardous material cause or contribute If yes, enter the number of injuries resulting from		False	
Hospitalized (Admitted Only):			
Employees:			
Responders:			
General Public:			
Non-Hospitalized:			
(e.g.: On site first aid or Emergency Room Employees:	observation and release)		
Responders:			
General Public:			
35. Did the hazardous material cause or contribute If yes, provide the following information: Total number of general public evacuated:	to an evacuation?	False	
Total number of employees evacuated:			
Total evacuated:	0		
Duration of the evacuation:			
36. Was a major transportation artery or facility clo lf yes, how many?	False		
37. Was the material involved in a crash or derailm	ent?	False	
If yes, provide the following information:	. 4100		
Estimated speed (mph):			
Weather conditions:			
Vehicle overturned?			
Vehicle left roadway/track?			

38. Was the shipment on a passenger aircraft? If yes, was it tendered as cargo, or as passenger baggage? 39. Where did the incident occur (if unknown, check the appropriate box for the location where the incident was discovered)? 40. What phase(s) had the shipment already undergone prior to the incident? (Check all that apply) Shipment had not been transported Transport by air (subsequent flights) Initial transport by highway to cargo facility

PART VI - DESCRIPTION OF EVENTS & PACKAGE FAILURE

- Describe the sequence of events that led to the incident and the actions taken at the time it was discovered. Describe the package failure, including the size and location of holes, cracks, etc. Photographs and diagrams should be submitted if needed for clarification. Estimate the duration of the release, if possible. Describe what was done to mitigate the effects of the release. Continue on additional sheets if necessary.

Describe:

Report from yard crew of possible release to top and sides of tank car TILX 135353 in Altoona, WI yard. Inspection by UPRR Hazmat Dept and Rybak Environmental, contractor, found all 8 manway swing bolts less than tool tight. Release was to the top and sides of car only. Manway nozzle and outside car surface cleaned and manway swing bolts properly secured.

PART VII - RECOMMENDATIONS/ACTIONS TAKEN TO PREVENT RECURRENCE

- Where you are able to do so, suggest or describe changes (such as additional training, use of better packaging, or improved operating procedures) to help prevent recurrence. Provide recommendations for improvement to hazardous materials transportation beyond the control of your individual company. Continue on additional sheets if necessary.

Describe:

Ensure tank car is properly secured for transportation.
